29 May 2009

Extraordinary strong first quarter

New growth potential from market entry in Norway

- Today, AGO published excellent figures for the first quarter (Q1) of 2009. Sales climbed 35.2%, reaching EUR 7.2m (Q1 2008: 5.4m). The significant increase of the gross margin from 12.7% in Q1 2008 up to 15.5% in Q1 2009 is due to AGO's consequent shift away from externally planned projects (e.g. project tenders) of uncertain margin quality to self-planned projects with less down-side risk. AGO was therefore able to realize this strategic goal. EBIT increased to EUR 0.38m (EUR -0.09m), corresponding to an EBIT margin of 5.3% (-1.7%). AGO's net income attributable to shareholders amounted to EUR 0.14m (EUR -0.23m), resulting in EPS of EUR 0.04 (EUR -0.06). Cash flow from operating activities was significantly enhanced, reaching EUR -0.13m (EUR -1.28m).
- The strong Q1 figures are all the more noteworthy considering the seasonality of AGO's business which typically results in a relatively weaker first quarter. In the first quarters of previous years, the results were affected by the completion of orders from Q4 and preparing for new orders. Normally, due to AGO's cyclical project business, there is no positive effect from new orders before the second quarter onwards. The strong figures of this year's Q1 therefore increase our confidence that AGO is on the right track to meet our forecasts for FY2009E.
- AGO's order backlog, which had reached a record high of EUR 28.3m on 31 December 2008, amounted to still very promising EUR 26.2m on 31 March 2009. The recently announced market entry in Norway opens up significant new market potential for AGO. In cooperation with a local partner, AGO plans to realize a total annual project volume of EUR 5m in Norway during the next three to five years.
- We leave our financial estimates for 2009E and 2010E as well as the fair value per share (EUR 5.42) unchanged, and maintain our BUY recommendation.

Disclaimer and statement according to § 34b German Securities Trading Act (“Wertpapierhandelsgesetz”) in combination with the provisions on financial analysis (“Finanzanalyseverordnung” FinAnV)

This report has been prepared independently of the company analysed by Close Brothers Seydler Research AG and/ or its cooperation partners and the analyst mentioned on the front page (hereafter all are jointly and/or individually called the ‘author’). None of Close Brothers Seydler Research AG, Close Brothers Seydler Bank AG or its cooperation partners, the Company or its shareholders has independently verified any of the information given in this document.

Section 34b of the German Securities Trading Act in combination with the FinAnV requires an enterprise preparing a security analysis to point out possible conflicts of interest with respect to the company that is the subject of the analysis.

Close Brothers Seydler Research AG is a majority owned subsidiary of Close Brothers Seydler Bank AG (hereafter ‘CBS’). However, Close Brothers Seydler Research AG provides its research work independent from CBS. CBS is offering a wide range of Services not only including investment banking services and liquidity providing services (designated sponsoring). CBS may possess relations to the covered companies as follows (additional information and disclosures will be made available upon request):

- CBS may hold more than 5% interest in the capital stock of the company that is subject of the analysis.
- CBS may have been a participant in the management of a (co)consortium in a selling agent function for the issuance of financial instruments, which themselves or their issuer is the subject of this financial analysis within the last twelve month.
- CBS may have been providing investment banking and/or consulting services during the last 12 months for the company analyzed for which compensation has been or will be paid for.
- CBS may act as designated sponsor for the company's securities on the basis of an existing designated sponsorship contract. The services include the provision of bid and ask offers.
- Due to the designated sponsoring service agreement CBS may regularly possess shares of the company and receives a compensation and/ or provision for its services.
- The designated sponsor service agreement may include a contractually agreed provision of research services.
- The company that is subject of the analysis may agree on a research service agreement with CBS.
- CBS may have significant financial interests in relation to the company that is subject of this analysis.

CBS and/or its employees or clients may take positions in, and may make purchases and/ or sales as principal or agent in the securities or related financial instruments discussed in this analysis. CBS may provide investment banking, consulting, and/ or other services to and/ or serve as directors of the companies referred to in this analysis. No part of the authors compensation was, is or will be directly or indirectly related to the recommendations or views expressed.

CBS Research AG and AGO AG Energie + Anlagen have a contractual agreement about the preparation of research reports. CBS Research AG receives a compensation in return.

Recommendation System:

Close Brothers Seydler Research AG uses a 3-level absolute share rating system. The ratings pertain to a time horizon of up to 6 months:

BUY: The expected performance of the share price is above +10%.

NEUTRAL: The expected performance of the share price trend is between +5% and +10%.

SELL: The expected performance of the share price is below 5%.

Recommendation history for the company analysed in this report:

Date	Recommendation	Price at change date	Fair Value
May 19, 2008	Buy (Initiating Coverage)	3.99	EUR 5.71
May 30, 2008	Buy	4.00	EUR 5.71

August 19, 2008	Buy	4.70	EUR 5.71
November 21, 2008	Buy	3.57	EUR 5.71
February 27, 2009	Buy	3.02	EUR 5.42
May 4, 2009	Buy	2.92	EUR 5.42
May 29, 2009	Buy	3.45	EUR 5.42

Risk-scaling System:

Close Brothers Seydler Research AG uses a 3-level risk-scaling System. The ratings pertain to a time horizon of up to 6 months:

LOW: The volatility is expected lower than the volatility of the benchmark

MEDIUM: The volatility is expected equal to the volatility of the benchmark

HIGH: The volatility is expected higher than the volatility of the benchmark

The following valuation methods are used when valuing companies: Multiplier models (price/earnings, price/cash flow, price/book value, EV/revenues, EV/EBIT, EV/EBITA, EV/EBITDA), peer group comparisons, historical valuation approaches, discounting models (DCF, DDM), break-up value approaches or asset valuation approaches. The valuation models are dependent upon macroeconomic measures such as interest, currencies, raw materials and assumptions concerning the economy. In addition, market moods influence the valuation of companies.

The figures taken from the statement of income, the cash flow statement and the balance sheet upon which the evaluation of companies is based are estimates referring to given dates and therefore subject to risks.

These may change at any time with prior notice.
